■ BATTERY CHANGE

- The miniature battery SEIKO CR1220, Maxell CR1220 or SONY CR1220, which powers your watch, should last approximately 2 years. However, because it is inserted at the factory, the actual life of the battery once in your possession may be less than 2 years. sion may be less than 2 years.
- Be sure to replace the battery to prevent any possible malfunction as soon as it runs down.
- To replace the battery we recommend taking the watch to a local watch repair shop.

Note:

If the alarm is used for more than 20 seconds a day and/or the illuminating light for more than 8 seconds a day, the battery life may be less than the specified period.
